

TOMAHAWK

Phosphoric Fleet Washing Compound

ACID-BASED
CLEANERS

TOMAHAWK is designed for the removal of road film; mineral deposits and hard water build up. **TOMAHAWK** is ideal for removing concrete and residue from fleet vehicles and ready-mix trucks. Once applied, it leaves a clean and radiant shine on most surfaces.

FEATURES & BENEFITS:

POWERFUL- Stronger cleaning ability.

INHIBITORS- Safer to use.

WETTING COMPOUNDS- Free rinsing, no residue.

APPLICATIONS:

Cleaning and restoration of fleet vehicles, trucks, tankers & trailers.

DIRECTIONS:

Test in an inconspicuous area before use. **(When diluting, always add this product to water, NOT water to product)**. Avoid splashing of product. For cleaning trucks and vans, one part product should be diluted with twenty parts of water. Heavily soiled areas may require a stronger dilution. Apply from the bottom and work your way up. **TOMAHAWK** may be either brushed or sprayed onto the surface and allowed to dwell until foaming occurs. Rinse with water and re-apply as needed. For drums on cement trucks and cabs, test at one part product to forty parts water and increase strength gradually.

FORMULATION:

Acids and surface active agents.

TARGET ACCOUNTS:

Trucking companies, fleets, oil refiners, concrete companies, dairies and haulers.

ESPECIAL CAUTIONS:

Ventilate area of use; use rubber gloves and goggles.

PACKAGING AVAILABILITY

Bulk liquid:
5g and 55g drums
