

FOOD GRADE

FOOD GRADE SILICONE LUBRICANT

BULLS EYE, a non-staining siliconized lubricant, is a stable blended formula that deeply penetrates, thus eliminating sticking problems and annoying squeaks. **BULLS EYE** has been specifically formulated for use in the food processing industry. It's premium synthetic components repel water and ice while retarding rust and corrosion. Ideal lubricant for all food processing equipment including conveyors, mixers, fillers, pumps, hoppers, etc. Also an ideal lubricant for harvesting and field equipment. It's long lasting silicone helps prevent dirt, dust and other particles from getting into critical moving parts. Food grade components allows this product to be used in food processing facilities.

FEATURES & BENEFITS

- **High temperature** - Stable at high heats.
- **Non staining** - Won't blemish.
- **Water proof** - Protects metal.
- **NSF Approved** - Compliance assurance

APPLICATIONS

This product is ideal for lubricating conveyors, mixers, fillers, pumps, hoppers, hinges and all other moving or sliding pieces of equipment and machinery. Also protects metal against water, rust and corrosion by creating a waterproof barrier anywhere it is sprayed.

TARGET ACCOUNTS

Food Processing Facilities, Farms, Bakeries, Fish Hatcheries, Canning Facilities.

SPECIAL CAUTIONS

Pre-test before using on plastics. Protect against overspray on floors.
