

POST HARVEST MAINTENANCE PRODUCT LINE

For over 35 years, Sunrise Environmental has been manufacturing products for the agriculture industry. Nationwide Sunrise has a reputation for providing a premium quality product that saves our customers time, money and effort. Our **Post Harvest Maintenance Product Line** is designed specifically for use by farms, growers, processors and all other facets of the Ag industry. These products are blended with eco-sensitive and biodegradable ingredients to ensure environmental compliance. Please consult your Sunrise Sales Representative for additional information.

TRUCK RESTORE

TRUCK RESTORE is designed for the removal of anodoc and chromate coatings on aluminum. Once applied, it leaves a clean and brilliant shine on most aluminum surfaces. **TRUCK RESTORE** is safe on painted surfaces. This is the product you always wanted but could never find!

THRUSTER

THRUSTER chemically neutralizes rust and leaves a long-term preventative coating in its place. **THRUSTER** seals, protects and extends the life of ferrous metal. The application of this compound turns the rusted area into a black protective finish. After curing, the affected area may be painted if desired.

KRYSTAL ICE

With the development of **KRYSTAL ICE**, SUNRISE has provided the market with the most advanced technology in glass and chrome cleaning. This state-of-the-art compound is the most user-friendly formula available today. It contains no alcohol or harsh solvents yet it is fast-drying and virtually non-streaking when used according to label instructions. The rapid drying time of this formula significantly reduces wipe-down time and expedites production.

DYNAMITE

DYNAMITE is scientific blend of fine carnauba waxes does an outstanding job in restoring and protecting all painted surfaces such as cars, trucks, planes, motorcycles, boats and even desks and filing cabinets. Truly an amazing product for maintenance and restoration of paint.

ARMOURGUARD

SUNRISE'S amazing **ARMOUR GUARD** is a revolutionary system designed to rejuvenate vinyl, plastics, leather, rubber, wood, chrome and some painted surfaces. Not only does **ARMOUR GUARD** create a beautiful cosmetic effect, but it also provides a functional barrier against deterioration. SUNRISE'S **ARMOUR GUARD** is outstanding for use on automobile seats, dash boards, vinyl tops and tires, and other surfaces.

ENHANCE

ENHANCE is the first system designed and dedicated to the total protection and rejuvenation of vinyl, plastic, rubber, leather, chrome, and most painted surfaces. Not only does it restore and create a beautiful cosmetic effect, but it also serves as a functional barrier against the harmful effects of age, elements and general wear and tear. In addition, all of these benefits are delivered in the convenience and ease of a "one-step aerosol application".

PREEN

SUNRISE'S amazing **ARMOR GUARD/ENHANCE** formulas are now available in this handy, easy-to-use and disposable towel. You receive all the convenience and effectiveness of these fine products in this all new format. Watch as your tires, seats, furniture, bar tops, tables, upholstery and all manner of surfaces take on new luster as well as receive the protection that they deserve.
