

MURIATIC ACID

ACID-BASED
CLEANERS

STANDARD 20° BAUME

FEATURES & BENEFITS:

Inhibited- Safer to use.
Fast acting- Reduces down-time.

APPLICATIONS:

This product may be used when the PH of swimming pools is above the normal range of 7.2-7.6. Add sufficient acid with circulation to lower PH to the proper range.

DIRECTIONS:

Use only when the ph level in a pool is higher than the normal range of 7.2-7.6. Add sufficient acid at varied pool positions. Take ph readings after the pool water has sufficiently circulated until the ph is lowered into the normal 7.2-7.6 range.

HANDLING: Check cap before moving to make sure it is fastened securely. Take care not to splash when applying to your pool. Store out of sun and away from heat.

FORMULATION:

Concentrated product, 20° Baume.

TARGET ACCOUNTS:

Athletic clubs, workout facilities, elks clubs, YMCA, swimming pools.

SPECIAL CAUTIONS:

When using to clean brick or masonry from stains or fireplace carbon, use rubber gloves and eye protection.
