

FOUR WAY

WORKS FOUR WAYS
Lubricates • Displaces Moisture
Penetrates • Prevents Corrosion

**LUBRICANT
PRODUCTS**

FOUR-WAY is specifically formulated for the lubrication, maintenance and protection of equipment in municipal highway and street maintenance shops, public utilities, water, police, fire, park and recreation departments, sewage treatment plants and school bus garages. **FOUR-WAY** lubricates precision equipment, provides lasting protection for tools, jigs and fixtures, penetrates and frees rusted or frozen parts. **FOUR-WAY** protects metals stored indoors or outdoors, displaces moisture on electrical and electronic equipment, waterproofs ignition systems and terminals.

FEATURES & BENEFITS:

- Penetrates-** Migrates to source of problem.
- Lubricates-** Leaves residual lubrication.
- Displaces moisture-** Inhibits rusting.
- Frees corrosion-** Removes rust.

APPLICATIONS:

The product is designed for the maintenance, lubrication, and protection of equipment in public utilities, police, water, fire, park and recreational departments, trucking firms, maintenance shops, garages, auto dealers, etc.

DIRECTIONS:

Hold container about 10 inches from the surface to be treated, pointing the end of the actuator at the surface. The contents are released by pressing on the side of the actuator. Spray liberally, re-applying periodically as required.
