

RELEASE 212

SILICONE LUBRICANT

LUBRICANT
PRODUCTS

RELEASE 212 is a non-staining, siliconized lubricant, it is a stable blended formula that deeply penetrates, thus eliminating sticking problems and annoying squeaks. **RELEASE 212** will repel water and ice and retard rust and corrosion. It will lubricate and free-up sticking windows, doors, drawers, zippers, cabinets, etc. **RELEASE 212** can be used on rubber, leather, vinyl, metal, nylon, wood and painted surfaces. Excellent for use on municipal vehicles to eliminate fan belt and rubber squeaks, freezing doors, and metallic noises.

FEATURES & BENEFITS:

Heat tolerant - Stable at high temperatures.

Non-staining - Will not blemish.

Water resistant - Protects metal.

APPLICATIONS:

This product is ideal for use on conveyors, vending machines, hinges, drawers, zippers, chairs, doors, windows, guns, saw blades, cabinets, slides, etc.

DIRECTIONS:

For drilling, milling, turning, counterboring steel, mix one part of **LATHEX** concentrate with 25 to 40 parts of water. For reaming, boring, sawing, tapping, broaching, threading steel, use one part of **LATHEX** concentrate with 10 to 30 parts water. For grinding, use one part of **LATHEX** concentrate, with 20 to 30 parts of water. This product provides rust protection. **LATHEX** retains high film strength even at dilutions as high as one part to 50 to 100 parts of water. Test tool performance against dilution for best economy.

CUSTOMERS WHO USED THIS PRODUCT ALSO USED:

FORMULATION:

Synthetic metal-working fluids, solutilizers, coupling solvent, corrosion inhibitors, anti-spatter agent, and biocide..

TARGET ACCOUNTS:

Cabinet Shops, Door Manufacturers, Light Industrial Plants, Housekeeping Departments, Packaging Plants, Milling Companies.

SPECIAL CAUTIONS:

Pre-test before using on plastics.
