

CARB FREE

CARBURATOR CLEANER

**AUTO & FLEET
MAINTENANCE**

**PACKAGING
AVAILABILITY:**

Aerosol

PART #1044

QR CODE:

CARB FREE cleans, penetrates and dissolves gum, varnish and carbon from carburetor, linkage, butterfly valve, automatic choke, and PCV system.

FEATURES & BENEFITS:

Three way nozzle- Economy and flexibility.

High solvency- Cleans gum, resin and varnish from critical areas.

APPLICATIONS:

Thorough cleaning of external and internal carburetor components as well as pcv valves and chokes.

DIRECTIONS:

SHAKE WELL. With engine warm and running, remove air filter and apply the **CARB FREE** to free external linkages. Disconnect PCV valve from crank case. Spray the **CARB FREE** into PCV valve allowing the carburetor vacuum to draw cleaner through the valve and connecting hose. Continue spray until clean. Proceed to clean choke butterfly, moving it back and forth until it moves freely. Continue by cleaning choke plate and shaft and throat walls. Spray directly and continuously into throat until can is empty. Do not allow engine to stall during application. Do not allow spray to contact painted surfaces.

CUSTOMERS WHO USED THIS PRODUCT ALSO USED:

FORMULATION:

Keytones, solvents, carbon and varnish removers, wetting agents.

TARGET ACCOUNTS:

County maintenance, bus shops, trucking industry car lots, police and fire departments, taxi companies, construction companies, etc.

SPECIAL CAUTIONS:

Flammable.
