KEEP OUT OF REACH OF CHILDREN

PRODUCT #1058

NET WEIGHT: 16 OZ

QUICK DRAW

QUICK DRAW has been designed for high speed application and removal of most carpet and upholstery spots, spills and blemishes. The unique valve and actuating system coupled with **QUICK DRAW**, enable the user to apply this amazing formula from the standing position. No more stooping and knee crawling to apply your stain removers. It's time for a showdown with your carpets and upholstery. Use **QUICK DRAW** to eliminate your problems.

INVERT CAN TO USE

DIRECTIONS: FRESH SPILLS: First blot up spill with an absorbent towel-type rag, **INVERT CAN TO USE** then apply **QUICK DRAW** liberally to the spill area. Allow minimal "working" time and blot up with rag.

OLD STAINS: INVERT CAN and apply **QUICK DRAW** to the stained area and allow three to five minutes for the formulation to penetrate the material. Blot up with towel-type rag. More stubborn blemishes may require mechanical agitation with a soft-bristle brush or repeated applications of the formula. Note: Can must be in the inverted position to discharge product. Failure to operate can in this position will cause discharge of propellant, leaving non-usable, residual product in the can.
