## LUBRICANTS AND CLEANING COMPOUNDS

SUNRISE has incorporated our reputation for premium products with the strict guidelines for food processing to bring you an entire line of "Food Grade" products for your facility. Designed specifically for use in food processing facilities, farms, cold storage warehouses, meat packing companies and anywhere strict compliance is a concern.

SUNRISE' **BULL'S EYE** is a non-staining, stable blended formula that deeply penetrates, thus eliminating sticking problems and annoying squeaks. **BULL'S EYE** will repel water and ice and retard rust and corrosion. It will lubricate and free sticking windows, doors, drawers, zippers, cabinets, etc. Also, may be used on rubber, leather, metal, nylon, wood and painted surfaces. This can be used on food processing equipment where there is no contact of the lubricant with food.

**CHAIN-GUARD FG** is manufactured from a combination of high quality HVI solvent-extracted dual hydrogenated paraffinic base oils and selected synthetic base oils. These are fortified with food grade antiwear agents and a food grade tackiness agent to impart maximum antiwear and clinging characteristics. **CHAIN-GUARD FG** is recommended for lubrication of chains, rollers, and conveyors in industrial plants, contractors equipment and agricultural equipment where food grade lubricants should be used.

**SNIPER** has a unique combination of ingredients that markedly reduce surface tension which permits rapid, deep penetration of corroded parts. **SNIPER'S** unique spray head permits spraying from any angle, allowing penetrant to reach areas otherwise inaccessible. **SNIPER** has an affinity to metal which aids penetration. Residual oil film lubricates and provides protection against subsequent corrosion. Penetrates and frees rusty parts such as bolts, nuts, lock mechanisms, speedometers, brake cables, fittings, etc.

SUNRISE'S latest formulation in the world of "Food Grade" compounds is not only citrus based but also water-soluble. Use this product anywhere food safety is a concern but only a tough solvent based product will do the job. Ask your sales rep for a personal demonstration of all the uses this product has to offer.

**SUPER GLIDE FG** is a non-staining orange scented food grade silicone that eliminates sticking problems and annoying squeaks. **SUPER GLIDE FG** will repel water and ice and will retard rust and corrosion. **SUPER GLIDE FG** will lubricate and free sticking windows, doors, drawers, zippers, cabinets, etc. **SUPER GLIDE FG** may also be used on rubber, leather, metal, nylon, wood and painted surfaces. The pleasant citrus aroma allows for use in processing plants as well as other confined spaces.

Many customers have been asking **SUNRISE** to design a "Food Grade" solvent for attacking tough jobs around the processing facility, the farm and everywhere else food contamination is a concern. We are proud to introduce **ECHO 7**. This product is quickly becoming a stock item for facilities concerned about their "Food Grade" compliance. Ask your **SUNRISE** representative for more information.

**LIGHTNING FG** is a non-staining orange-scented food-grade silicone that eliminates sticking problems and annoying squeaks. **LIGHTNING FG** repels water and ice and will retard rust and corrosion. **LIGHTNING FG** will lubricate and free sticking windows, doors, drawers, zippers, cabinets, etc. **LIGHTNING FG** may also be used on rubber, leather, metal, nylon, wood and painted surfaces. The pleasant citrus aroma allows for use in processing plants as well as other confined spaces.

SUNRISE' **ONE-SHOT FG** is specifically formulated for the lubrication, maintenance and protection of equipment in the food processing industry. Lubricates precision equipment, provides lasting protection for tools, jigs and fixtures, penetrates and frees rusted or frozen parts.

For a complete line of specialty lubricants for the world of food machinery, including Food Grade Greases, Hydraulic Oils and Anti-Seize contact your Sunrise representative.
