

# **GALAXY** **RAINBOW POLISH**

**FULL LINE - WASH, WAX, U-V PROTECTOR,  
SEALANT & RINSE AGENT**

**AUTO & FLEET  
MAINTENANCE**

**GALAXY POWER WASH** is the first of a three part cleaning process for automatic car washes. **GALAXY POWER WASH** is designed to dissolve away road grime, bugs, dirt and oils from the surface. **GALAXY POWER WASH** is highly concentrated which provides for superior cleaning and reduced cost. The high volume of foam and the pleasing lemon scent makes **GALAXY POWER WASH** the ultimate wash for automated car and truck wash systems.

**GALAXY BLUE** is one of three brilliant colors to coat the car during the second phase of washing. **GALAXY BLUE** is the wax portion of the wash. **GALAXY BLUE** actually puts a thin coat of wax over the vehicle to help bring out the shine of the vehicles paint.

**GALAXY RED** is one of three brilliant colors to coat the car during the second phase of washing. **GALAXY RED** is the sealing portion of the wash. **GALAXY RED** puts a sealant over the wax finish to allow the wax to stay on the car longer. **GALAXY RED** will also help prevent ordinary road grime and film from penetrating the vehicles paint.

**GALAXY YELLOW** is one of three brilliant colors to coat the car during the second phase of washing. **GALAXY YELLOW** protects the car against the suns rays and oxidation. This is essential to extending the life of the paint.

**GALAXY SUPER GLOW** is the highest quality final rinse additive for all types of car washing machines. It is used to eliminate spotting, to speed air-drying and to insure gleaming glass, plastic, chrome, metal, stainless steel and aluminum. **GALAXY SUPER GLOW** can be used in any type of injection proportioning system.

This product is outstanding for use on restaurant and bar chairs, automobile interiors, vinyl tops, tires and any other surface that lacks that original "new look".
