

GLARE

METAL POLISH WIPES

GLARE has been designed to clean as well as quickly and effortlessly restore the sheen to your stainless steel or metal surface. This amazing wipe can be used virtually on any metal surface without any harsh rubbing or scraping to remove varnish. **GLARE** will leave a protective shine that lasts without any powdery residues. Try the **GLARE** advantage today.

DIRECTIONS

Use rubber gloves to avoid getting your hands oily. Remove a handy **GLARE** wipe from the bucket by pulling it to the perforation at a 90° angle. Simply wipe surface, turning the towel frequently to a clean surface. Apply with a rubbing circular motion. If desired, excess oil can be removed by using a soft absorbent cloth. On surfaces, excellent leveling can be achieved by removing oil residue with a soft cotton rag.

Always make certain to snap cap in place to prevent evaporation of oils.

FUNCTION

Disposable towel metal polish.

DESIGNED FOR

This product easily and quickly brings out the fine shine of stainless steel and other metals.

FORMULATION

Petroleum distillates, light oils.

FEATURES AND BENEFITS
