ECHO 7

GLUE AND ADHESIVE REMOVER

CAUTION: CONTENTS UNDER PRESSURE. VAPOR MAY BE HARMFUL. READ CAUTIONS ON BACK PANEL BEFORE USING.
KEEP OUT OF REACH OF CHILDREN
PRODUCT #1112 NET WEIGHT: 16 OZ (459 g)

ECHO 7

ECHO 7 is designed for removing adhesive or glue from food packaging equipment in and around food processing areas, where its use is not intended for direct food contact. Spray ECHO 7 directly onto glue or stickers and let sit for 3 minutes. In many cases the stickers will simply peel away. Not only is ECHO 7 extremely effective, but it is pleasant to work with as well.

Directions: Always pre-test product in an inconspicuous area prior to final application. For best results, use at room temperature. Shake can well before using. Product should be sprayed in a well ventilated area. Do not apply directly to food. A rinse process is required to remove residual product. Using an NSF registered cleaner, such as SUNRISE'S ASSAULT, thoroughly clean and rinse any surface ECHO 7 has been applied to.

SUGGESTED USES:

- Food Processing Equipment and other non-food surfaces
- Stickers
- Glue
- Build up or tacky residue
