ENHANCE

RUBBER, LEATHER & VINYL PROTECTANT

ENHANCE

SHAKE WELL BEFORE USING!!

Here is the first system designed and dedicated to the total protection and rejuvenation of vinyl, plastic, rubber, leather, chrome, and most painted surfaces. Not only does ENHANCE restore and create a beautiful cosmetic effect, but it also serves as a functional barrier against the harmful effects of age, elements and general wear and tear. In addition, all of these benefits are delivered in the convenience and ease of a “one-step aerosol application”. ENHANCE is outstanding for use on restaurant and bar chairs, automobile interiors, vinyl tops, tires and any other surface that lacks that original “new look”.

DIRECTIONS:

Best results are achieved by first cleaning and thoroughly drying the surface needing treatment. Then, simply spray ENHANCE on surface and wipe with a soft dry cloth to remove excess product and buff to the desired sheen. Reapply as needed.

SUGGESTED USES:

- Rubber
- Vinyl Tops
- Leather Seats
- Plastics
- Dashboards
- Interior Surfaces
- Exterior Surfaces
