

TRAILBLAZER

Low pH Truck and Vehicle Wash

LIMPIADOR DE VEHÍCULOS Y CAMIONES CON BAJO pH

TRAILBLAZER has been designed as a safe alternative to typical acid based truck and vehicle washes. TRAILBLAZER contains no inorganic acids however, utilizes a low pH organic salt that is used to replace traditional minerals and acid. TRAILBLAZER is not regulated by the DOT for transportation so, costs are kept low. Put TRAILBLAZER to work today and experience all of the cleaning benefits and safety to the user that this new technology has to offer.

DIRECTIONS

• WEAR PROTECTIVE EQUIPMENT •

Face shield, chemical resistant gloves, apron and boots. For areas that contain a heavy build-up, dilute TRAILBLAZER with 3 parts water and 1 part product. For general maintenance and cleaning use TRAILBLAZER at the rate of 10 parts of water and 1 part product. Apply the solution to be cleaned using a bucket and brush. Always work in sections and start at the bottom and work your way to the top. Allow the solution to sit on the surface and work and then flush with water. Re-apply if build-up is excessive. Before using TRAILBLAZER it is recommended that surface is tested in an inconspicuous area to ensure no harm will result to the surface.
