

HOT LINE

SEWER CLEANING COMPOUND

OUTDOOR
& INDUSTRIAL
MAINTENANCE

HOT LINE Sewer Compound is a granulated sewer compound that is activated by water. The high HEAT and AGITATION generated by **HOT LINE** removes debris and settlements from sewer lines.

FEATURES & BENEFITS:

Sodium hydroxide- High heat generation.

Aluminum crystals- Enhanced agitation.

Time release- Allows product to flow to clog before reacting.

APPLICATIONS:

Removal of major blockages in sewer lines and laterals.

DIRECTIONS:

For larger sewer systems shovel 25 pounds of **HOT LINE** into strategic manholes. If the sewer system is dry before using the sewer compound add water after pouring **HOT LINE** in manholes.

FORMULATION:

This product contains anti-dusting agents, free flowing additives, sodium nitrate, aluminum granules and caustic soda.

TARGET ACCOUNTS:

Schools, slaughter houses, packing plants, sewers, forest service, fairgrounds, parks and restaurants.

SPECIAL CAUTIONS:

Strong oxidizer containing caustic bead. Use extreme caution.

PACKAGING AVAILABILITY

Granular
Kegs 50 lb.

PART #4001
